September 1st:
non-EU/EEA citizens**

**October 15th:
EU/EEA and
Swiss citizens**

How to apply

Apply online for all SDU programmes. You will find details on how to apply and the deadlines you need to meet on our website. Please do not hesitate to contact us if you need assistance in your application process.

For the Bachelor's intake applications to SDU have to be sent online via the national application system optagelse.dk. The system opens on February 1st. You have to upload all relevant documents to your application on optagelse.dk.

To apply for a Master's programme at SDU, you have to submit an application via the online application portal DANS. See dans.stads.dk. Before you can create your application, you have to set up a user profile in the application system. When you set up a user, you have to upload a copy of your passport or another ID including picture, name, date of birth and nationality. If you live in Denmark, you can also login with the Danish NemID. If you have a login from another Danish educational institution, you can also use this to access the application system.

You can apply for up to three programmes at the University of Southern Denmark. You simply have to submit an application for each programme. Once you have submitted more than one application, you will be asked to prioritize the programmes you have applied for.

[Apply now →](#)

English language

If you apply for a Master's or Bachelor's programme taught in English, you must prove your English proficiency. Your English proficiency is important, so that you can get the most out of your education.

requirements

Language tests

We accept the following English language tests:

- TOEFL IBT test with a minimum score of 88 (maximum two years old)
- IELTS academic test with a minimum overall band score of 6.5 (maximum two years old)
- C1 Advanced (CAE) with a minimum result of C
- C2 Proficiency (CPE)

Both CAE and CPE must be from a Cambridge Network or from University of Michigan.

EU citizens

If you are an EU/EEA, Nordic, or Swiss citizen, you may be able to prove your English skills by way of your secondary school diploma. You must prove an upper intermediate level in English comparable to the Danish "English B" level with a grade equivalent to 3.0 or higher in the Danish grading scale (2 is passed, 12 is max). To do so, you need to document the number of English lessons per week, number of weeks per school year, and the number of years you have attended high school. You must submit a stamped and signed SDU Statement of Hours.

Deadlines

Documentation concerning your English language skills must be sent to SDU before:

- July 5th if you apply for a Bachelor's
- May 15th if you apply for a Master's starting in September
- December 1st if you apply for a Master's starting in February

Tuition Fees

If you are an EU citizen,
you do not have to pay
any tuition fees at SDU.

[Tuition fees at SDU →](#)

Non-EU/EEA citizens are required to pay tuition.

The tuition fees differ from programme to programme. Check sdu.dk about the prices.

No fees for EU students

Are you a full degree student and come from the Nordic countries, EU/EEA countries or Switzerland?

– If “yes”, you can study for free at SDU. We do not charge tuition fees for full degree students from the Nordic countries, the EU/EEA countries or Switzerland.

Scholarships for Engineers

75 scholarships are awarded to non-EU/EEA students doing their Master’s in one of our engineering programmes on our campus in Sønderborg.

Accommodation guaranteed

SDU will assist you in finding a place to live

We recommend that you apply for accommodation as soon as you have submitted your application to SDU even if you are not sure you will be admitted. Please note that SDU offers programmes in several cities and it is important that you apply for accommodation in all the cities where the programmes you have applied for admission to are offered.

To be guaranteed accommodation you must apply before the deadline:

September admission: May 1

February admission: November 1

In that case, we will assist you in finding a place to live. There are several accommodation options offered through our housing office:

- Rooms in a campus hall (Kollegium), price: 260-400 euro per month.
- Private rooms in a house or a flat, price: 250-500 euro per month.
- Private flats - either alone or shared with other students, prices vary considerably

[About accommodation →](#)

Our staff can help you

You will probably have many questions, both before and after arriving at the university.

Before you arrive, staff can help with issues such as the application process, language requirements, and enquiries about the cost of living in Denmark.

Choose SDU

Enjoy quality in education and research at SDU. E-learning and state-of-the-art laboratories offer a vibrant learning environment where innovation and tradition go hand in hand.

Whether you want to gain work experience or conduct research, SDU can help you get in touch with the right people, through our international network of businesses, institutions, and researchers.

World-class resources and dynamic teaching at the University of Southern Denmark enable you to get the best out of studying abroad.

Whether you are learning a new language, or researching science, the university puts the tools you need at your disposal.

Truly global university

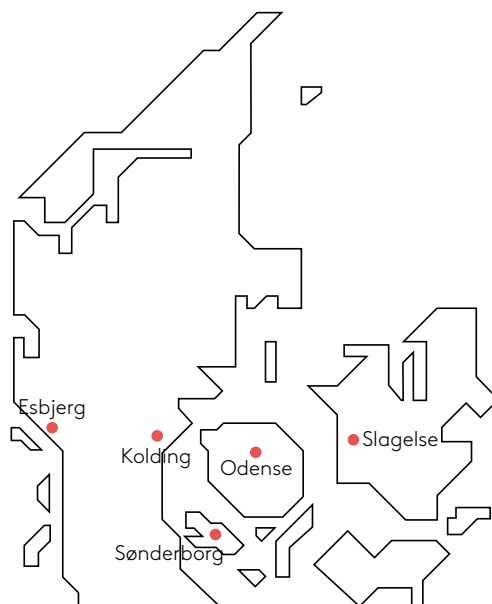

SDU is a modern institution offering education and research at the highest level

Every day more than 2,000 researchers and 27,000 students build on the university's reputation as a centre of academic excellence.

The University of Southern Denmark has over 27,000 students across its five campuses. With over 3,700 of these students coming from outside Denmark, there is a rich and vibrant international environment.

With around 60 full-time study programmes taught in English, graduates of the University of Southern Denmark are now members of virtually every profession in the international community.

More than 500 exchange agreements exist with partner institutions around the world, meaning that we are a truly global university.

Teaching at SDU

Friendly atmosphere between students and teachers. The relationship between student and teacher at SDU is quite informal. Both students and teachers like to consider one another equals.

You are always encouraged to ask questions, both inside and outside of the classroom, and to express your opinion on themes discussed during the courses.

The informal atmosphere does not mean that an overly-relaxed attitude towards one's studies is taken. On the contrary - the independent nature of university studies at SDU requires students to show initiative and to take responsibility in the planning of their studies, and to keep to their own schedules.

Group work

Developing key skills for your future career

Under guidance from a supervisor, students often choose their own project work topics, and decide how to explore the subject. Such project work allows students to develop strong analytical and problem-solving skills.

Students also learn how to search for, and how to process information. Normally conducted in small groups, project work offers students valuable experience in teamwork, communication, and project planning. These skills are highly valued in today's workplace, where small teams are often required to work together. By improving your communication in multicultural and multidisciplinary settings, you will develop key skills for your future career.

Research at SDU

Conduct research while still a student!
At SDU you'll be presented with plenty of opportunities to participate in research with the guidance of your professors.

Contribute to world class research. Research is about making a difference to the world. As an international student, you will have the opportunity to engage in research at a high academic level with cutting-edge resources at your disposal. The University of Southern Denmark's reputation is built on expertise in areas such as biotechnology, stem cell research, robotics, political science, management, literature, history, and many more.

Work with the best!

SDU has several centres of excellence, chosen for pioneering research at national and international levels.

Part time Student jobs

As an international student in Denmark, you will have the right to work while you live here

Where do non-Danish speaking students work?

- Cafés, bars, or restaurants
- Hotels
- Newspaper delivery
- Cleaning jobs: the word for a cleaning company in Danish is "Rengøringsfirma".
- Greenhouses: Look up the word "Gartneri".

A multitude of study related jobs also become available during your stay in Denmark.

Learn how to apply for jobs and think about your career on sdu.dk/career and check out sdu.dk/jobbank for study related jobs, internships and projects.

Learning Danish opens up many additional job possibilities!

The rules

If you are a Nordic, EU/EEA or Swiss citizen, there are no restrictions to the number of hours you can work in Denmark. As a non-EU/EEA student you can work for up to 20 hours a week while you study in Denmark.

If you work more than this, your residence permit will be revoked. A general idea of a minimum expected wage is about 100 DKK (13.50 €) per hour. You should get a contract.

Job in Denmark

There are numerous reasons to work in Denmark. Foreign national workers routinely names these benefits:

- Denmark rank top in the world in work-life balance surveys.
- A welfare state: tax pays for child care, education, access to doctors and hospitals, elderly care, etc.
- A high quality of life: foreign national workers express a high level of satisfaction with leisure and cultural opportunities in Denmark.
- Danish business culture: a flat management structure and open dialogue between management and employees is typical in the workplace. Most workplaces regularly offers continuing education to their employees.

Work after graduation

Denmark offers a wide variety of possibilities for working after graduation. Whether you are strictly focused on advancing your career, or want to find a job with a great work-life balance, the Danish job market will have opportunities for you.

When enrolled as a master student, you can apply for a spot in SDU's Career in Denmark programme

Do you want to know more about job-hunting in Denmark and the dos and don'ts within the Danish labour market? SDU offers various activities for international students to become familiar with Danish businesses and industry.

Furthermore, you get to train your team work skills, problem solving abilities and how to market yourself to a potential employer.

You get to be a part of a group of highly motivated, skilled and talented internationals, all from diverse cultures and educational backgrounds, who are as eager to connect and dive into Danish work culture as you are.

You can apply for the programme if you study a full master's degree at SDU and want to pursue a career in Denmark after your studies. Learn more about the possibilities on www.sdu.dk/en/uddannelse/kandidat/career+in+denmark+program →

Denmark

Friendly, safe, and well-organized

Ideally placed as Scandinavia's gateway to Europe, Denmark is a kingdom of thriving cities and idyllic landscapes, and an innovative society with a green lifestyle.

Denmark is a small country, with a population of 6 million, and nowhere in Denmark is more than 50 km from the sea. Just a few kilometres from Denmark's major cities of Odense, Copenhagen, Esbjerg and Kolding you will find idyllic villages and pristine woodlands and lakes.

Welfare State

Denmark is a highly advanced welfare state, characterised by universal

healthcare, free education, and social security for all citizens.

Denmark stands as one of the world leaders in different fields of industry – agricultural goods, furniture and clothing, interior design, sea freight, wind turbines, medicine and assistive medical technologies, IT, equipment for automatic cooling and heating, and highly sensitive measurement instrumentation.

Denmark is recognized for its high quality research in areas such as biotechnology, food, and environmental science.
