QS World University Rankings 2020

- World-leading, world-impacting research\*
- 400+ degree programmes
- Students from more than 150 countries
- 29 Nobel laureates
- An award-winning sustainable university^
- Over 300 student clubs and societies
- In the heart of London, the world's best student city\*\*

\* Research Excellence Framework (REF 2014)

^ People & Planet University League for environmental and ethical performance

\*\* QS Best Student Cities 2019

We're proud of our pioneering history, distinguished present and exciting future. UCL is a great place to be a student for so many reasons.

We have a proud heritage of disruptive thinking,  
a reputation for game-changing research and a  
unique multidisciplinary approach to problem solving.

# Disruptive thin

# king since 1826

UCL has confronted humanity's biggest issues since 1826. At that time, attending university was a rare privilege. If you weren't a man from a wealthy background and a member of the established church, higher education was off limits.

Our founders tore up that rule book. We were the first university in England to welcome students of any religion or social background. We were also the first in England to welcome women to university education.

We have challenged inequality ever since, and we hold a Silver Athena SWAN award in recognition of our progressive work practice. Each year, we invest £13.5 million in bursaries and activities to support students from diverse backgrounds to enter and succeed.

We were also the first university in England to teach subjects such as engineering, architecture and languages. Our pioneering heritage makes us proud, but it's the future that really excites us.

Since our founding we have continually innovated our teaching methods. Our Connected Curriculum initiative makes research the cornerstone of our students' activity. Our Arts and Sciences BASc leads the way in interdisciplinary study. Elsewhere, our collaborative teaching methods break down the boundaries between student and teacher, encouraging the bold thinkers of tomorrow.

We are here to further your knowledge, develop your skills of analysis and problem-solving and give you a truly global outlook that draws on diverse cultural perspectives.

# Learn how to think – not what to think

Studying in London, you'll be living, learning and growing your network in one of the world's greatest cities. Through our Connected Curriculum you'll have the chance to work alongside some of the world's leading researchers. They will drive you to think more analytically and independently – providing opportunities to undertake research activities of your own and create original output.

We are constantly evolving to meet the needs of our students. Throughout your time here, you'll have many opportunities to shape our curriculum and how it's delivered.

Scan the QR code, or search:  
**'Discover UCL'** in YouTube  
to find out more.

We actively support collaboration between students and staff across the university, synthesizing approaches from different academic disciplines to develop joined-up responses to the world's most pressing issues.

# Our collaborative mindset

Learning as part of an international community of great minds, you will develop the cultural fluency and global outlook that are prized by employers.

Our collaborative approach also helps build the essential skills that make UCL graduates so in-demand, such as communication, teamwork, negotiation, entrepreneurship and project management.

UCL staff and alumni have won at least one Nobel Prize each decade since the award began in 1901, with over half of our 29 Nobel laureates born outside the UK.

# Our Nobel laureates

1904 – Chemistry  
Sir William Ramsay

Discovered the noble gases: helium, argon, neon, krypton and xenon.

1913 – Literature  
Rabindranath Tagore

Wrote profoundly sensitive, fresh and beautiful verse.

1915 – Physics  
Sir William Henry Bragg

Analysed the structure of crystals using X-rays.

1921 – Chemistry  
Frederick Soddy

Invented the concept of isotopes.

1922 – Physiology or Medicine  
Archibald Vivian Hill

Founded biophysics.

1928 – Physics  
Owen Willans Richardson

Discovered the law of thermionic emission.

1929 – Physiology or Medicine  
Sir Frederick Gowland Hopkins

Discovered growth-stimulating vitamins.

1936 – Physiology or Medicine  
Sir Henry Hallett Dale and Otto Loewi

Discovered neurotransmitters.

1938 – Physiology or Medicine  
Corneille Jean Francois Heymans

Revealed how respiration is regulated.

1944 – Chemistry  
Otto Hahn

Made discoveries leading to the development of nuclear technology.

1947 – Chemistry  
Robert Robinson

Discovered the structure of morphine and strychnine.

1955 – Chemistry  
Vincent du Vigneaud

Carried out the first synthesis of a polypeptide hormone, oxytocin.

1959 – Chemistry  
Jaroslav Heyrovsky

Discovered polarography, widely used in clinical and environmental analysis.

1960 – Physiology or Medicine  
Peter Brian Medawar

Discovered the key to successful organ and tissue transplantation.

1962 – Physiology or Medicine  
Francis Harry Compton Crick

Discovered the molecular structure of nucleic acids (DNA).

1963 – Physiology or Medicine  
Andrew Fielding Huxley

Revealed how activity is co-ordinated by a central nervous system.

1967 – Chemistry  
George Porter (Baron Porter of Luddenham)

Devised flash photolysis to observe free radicals.

1970 – Physiology or Medicine  
Sir Bernard Katz

Advanced remedies against nervous and mental disturbances.

1988 – Physiology or Medicine  
Sir James Black

Discovered the first beta-blocker, propranolol.

1991 – Physiology or Medicine  
Bert Sakmann

Discovered the role of ion channels in diseases, revolutionising cell biology.

2000 – Economics  
James Heckman

Developed statistical analysis of individual and household behaviour.

2001 – Physiology or Medicine  
Sir Paul Nurse

Enabled new avenues of research in tumour diagnostics and therapy.

2007 – Physiology or Medicine  
Sir Martin Evans

Introduced gene modifications in mice.

2009 – Physics  
Charles Kao

Developed the transmission of light for optical communication.

2013 – Physics  
Peter Higgs

Predicted the particle: the Higgs boson.

2013 – Physiology or Medicine  
James Rothman

Revealed how substances are trafficked by vesicles in our cells.

2014 – Physiology or Medicine  
John O'Keefe

Discovered the 'inner GPS' in the brain.

# Work / Projects / Research / Studies / Experiments / Tests / Collaborations / Trials / Hypotheses / Excavations / Masterpieces / **in progress**

UCL staff and students come from richly diverse backgrounds across the world. We use this truly global perspective to help solve the pressing issues of our times.

Our cutting-edge research has a real-world impact on everything from climate change to plastic pollution, infant mortality to social inequality.

We have set six 'Grand Challenges' in the fields of global health, cultural understanding, sustainable cities, human wellbeing, justice and equality, and transformative technology. Spanning anything from designing greener cities to fighting global epidemics, these challenges help us translate our world-class research into real-world impact.

The Grand Challenges bring together UCL people from different disciplines to develop joined-up solutions.

### Predicting extinction risk from climate change

With around 20,000 species of animals and plants facing extinction in the wild, UCL researchers have played an instrumental role in identifying those species most vulnerable due to climate change and have helped develop new conservation guidelines used the world over.

### Creating colours from coalfields

The discovery of five new commercial paint colours by artist, Onya McCausland from UCL's Slade School of Fine Art, has led to five industrial sites in the UK being declared as public works of art.

### Map-making by City-makers

UCL researchers together with inhabitants living in the peripheral slopes of the city of Lima used cutting-edge mapping technology to develop a methodology to better understand what is happening in marginalised settlements and inform solutions to improve the living conditions of impoverished dwellers.

### Making the feeling of touch accessible to all

Could prosthetic hands with haptic feedback become available to anyone who needs them? Dr Helge Wurdemann of UCL Mechanical Engineering has developed a combination of touch technology and 3D printing which could make simple 'bionic' hands available to anyone in the world.

Scan the QR code,  
or search: '**Made at UCL**'  
to find out more.

#### **Rice Inc**

Winner of the Hult Prize 2018, Rice Inc reduces farming waste, having developed an innovative way to dry rice. Its co-founders are Kisum Chan and Lincoln Lee (Biomedical Sciences BSc) who started the business in their third year of study.

# Educating new entrepreneurs

## **Blackwood**

Blackwood creates beautiful accessories using natural, sustainable alternatives to animal leather, such as cork leather. Its co-founders are Oskar Zieba (Mechanical Engineering with Business Finance MEng, 2019) and Gueric de Ternay (Affiliate student, UCL Laws 2013/14).

## **bio-bean**

Having developed a process for converting discarded coffee grounds into biofuel, bio-bean has gone from strength to strength. Founded by Arthur Kay (Architecture BSc, 2013), the business has worked with Shell on a project to power London's buses more sustainably.

Whether you plan to start your own business, tackle global issues or kick-start your dream career, we are here to help develop your entrepreneurial skills and thinking.

Our tailored, free extracurricular entrepreneurship programme, run by UCL Innovation and Enterprise, provides you with the skills, knowledge and hands-on experience you need to get your ideas off the ground and make a difference in the world.

If you want to start your own business our expert business advisors will provide mentoring and support to help steer your venture to success. You can also take advantage of free office space in The Hatchery, our dynamic start-up space at BaseKX in King's Cross.

Scan the QR code, or search: **'UCL entrepreneurship'** to find out more.

We are investing in a university fit for the 21st century and beyond. At UCL you'll find all the cutting-edge facilities you need to achieve great things.

# Cutting-edge facilities

We are spending £1.25 billion over 10 years to create sustainable spaces and best-in-class facilities – giving our staff and students the tools to take their learning and discoveries further.

Designed entirely around our students' needs, our new Student Centre includes 1,000 individual, group and open-plan study spaces, quiet contemplation areas, and easy access to help and support at the dedicated Student Enquiries Centre.

We also have a treasured venue in The Bloomsbury Theatre, which hosts plays, live music and comedy – as well as performances by our students and staff.

UCL's historic libraries, collections, museums and galleries span everything from Egyptology to pathology, zoology to fine art which are actively used in teaching.

Scan the QR code, or search: **'Transforming UCL'** to find out more.

# Our sustainable university

We have an ambitious vision to create and maintain a cleaner, greener, healthier, safer and more accessible environment at UCL, right in the heart of London's leafy Bloomsbury.

When it comes to sustainability, we lead by example. UCL's award-winning sustainable campus is already powered by 100% renewable electricity, but our longer-term vision is much more ambitious.

The Student Centre is one of the greenest, most sustainable buildings in the UK. Bathed in natural daylight, it is equipped with solar panels and benefits from reduced water consumption and a green roof to reduce its carbon footprint.

By 2024, all our buildings will be carbon neutral and free from single-use plastics. Through our teaching programmes, we pass on our knowledge of sustainable best-practice to our students, to ensure that they become sustainability advocates to benefit the wider world.

Scan the QR code, or search: **'Change possible UCL'** in YouTube to find out more.

# London is your classroom

Our Bloomsbury campus is a calm haven in the bustling heart of London, and your life in the city is a crucial part of your UCL education.

Bloomsbury itself is the historic home of Virginia Woolf and her 'Bloomsbury Group': writers, intellectuals, philosophers and artists who proudly challenged convention in both their lives and their work during the first half of the 20th century.

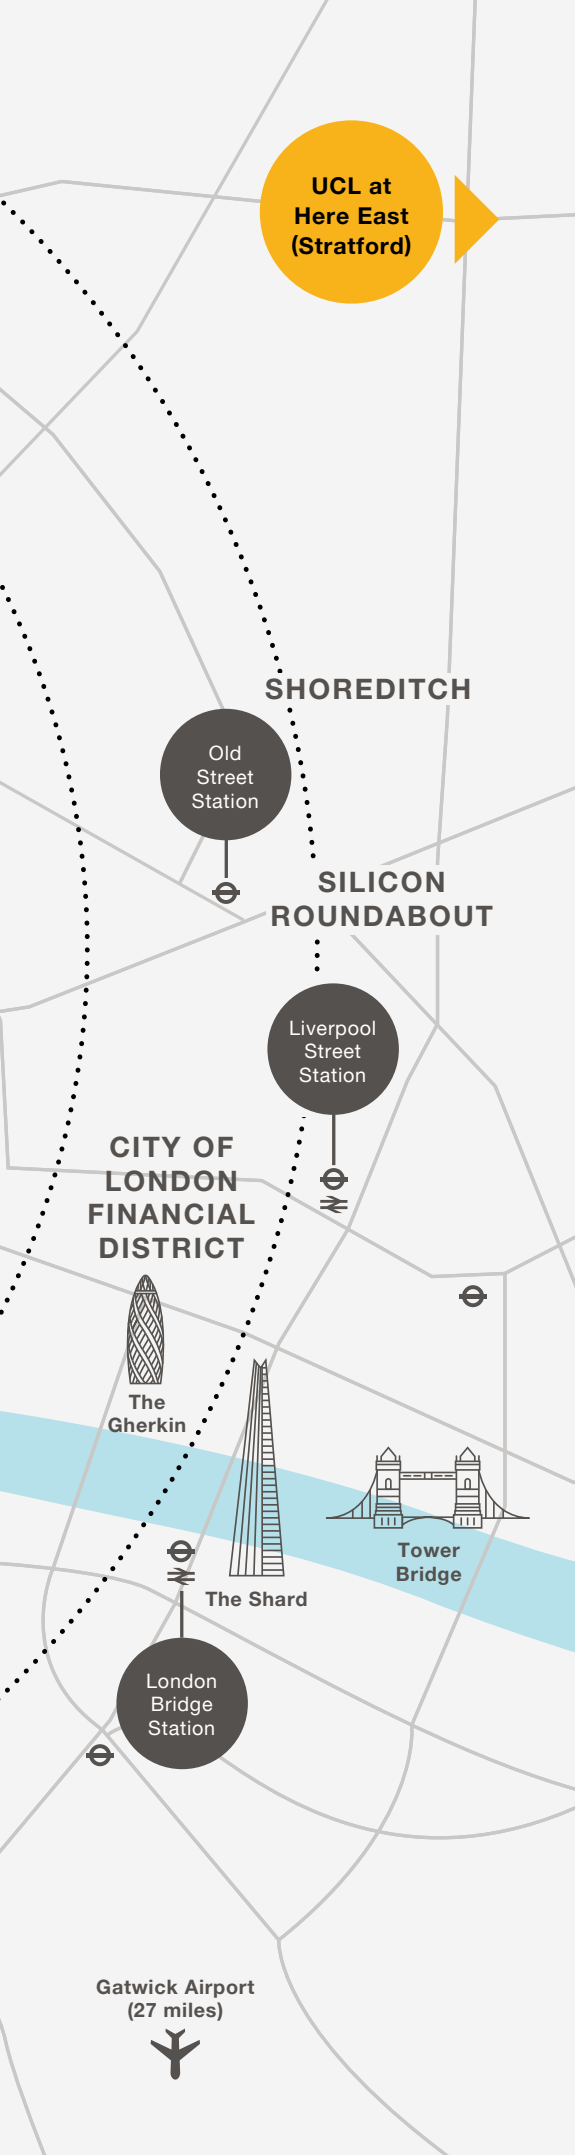

A wealth of knowledge and culture is on your doorstep at the world-renowned British Museum and British Library. And as part of London's 'Knowledge Quarter', we are surrounded by over 75 academic, research, cultural, media and technology institutions of all shapes and sizes – from Google to the Charles Dickens Museum.

Students can take advantage of free or discounted exhibitions and lectures, and our central location puts some of the world's best-known museums and cultural and scientific institutions within walking distance.

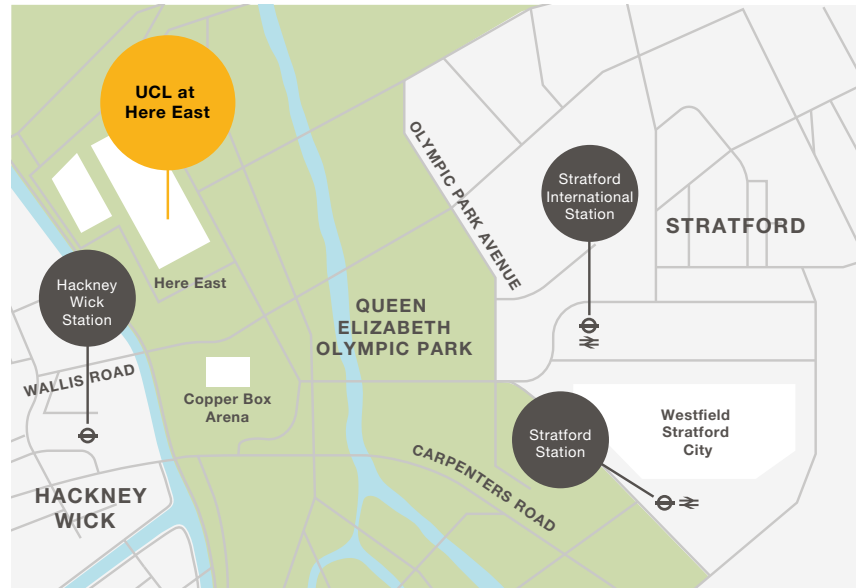

With easy transport links across London, to the rest of the UK and continental Europe, there's always something to do, see and learn.

# UCL in London

## UCL at Here East: How to find us

A short walk from Hackney Wick, Stratford or Stratford International Stations and easy access from our Bloomsbury campus.

Journey planner options:

- 1 Euston or King's Cross – Highbury & Islington – Hackney Wick – 6 min walk
- 2 Tottenham Court Road – Stratford – Here East bus
- 3 St Pancras – Stratford International – Here East bus

# A place to call home

Moving to a new city as a first-year undergraduate can be a major change, but you'll find a warm welcome at UCL.

Over 150 countries are represented in our diverse student community, and you'll make friends for life from all over the world here.

But first, you need a place to call home while you study. We will guarantee you accommodation in your first year, regardless of where you currently live, as long as:

- you will be a single, first-year undergraduate,
- you have chosen UCL as your firm choice through UCAS by the deadline (currently 31 May of the year of entry),
- you submit your accommodation application online by the deadline (currently 31 May of the year of entry),
- you have not previously lived or studied at a university in London (inside the M25 motorway).

Types of accommodation available

- Catered accommodation in which meals are included (breakfast and an evening dinner from Monday to Friday and lunch at weekends).
- Self-catered accommodation where you will share kitchen facilities (cooker, refrigerator, freezer, kettle, toaster and microwave) to prepare your own meals.

All UCL accommodation is offered for 39 weeks and is located in central London (ones 1 or 2 of London's public transport network).

Students with additional requirements

- Students with disabilities: we have a limited number of rooms available for students with additional requirements. Contact us for details – [accommodation@ucl.ac.uk](mailto:accommodation@ucl.ac.uk)
- Students with families: we have limited accommodation available for students with families. Contact us for details – [accommodation@ucl.ac.uk](mailto:accommodation@ucl.ac.uk)
- Care experience and estranged students: we will provide 365-day accommodation in the first year and, if needed, for subsequent years of study.

Further details about accommodation can be found on p90.

Scan the QR code, or search: [UCL accommodation](#) to find out more.

Scan the QR code, or search:  
**'UCL Students' Union'** to find  
out more.

Through our Students' Union,  
you'll make lifelong memories  
and get the most from London.

# A vibrant social life

The Students' Union is here to help you do more at UCL, to make the most of London and the opportunities you have here. As soon as you join UCL you become a member of the Union and can start taking advantage of all the things they have to offer – like joining as many of the 300 clubs and societies as you want to.

Clubs and societies are at the heart of student life at UCL. They're your social group on campus, your support network and your route to experiences you won't find anywhere else. More than a third of all students at UCL are members of clubs and societies.

TeamUCL is the collective name for all of our sports teams at UCL. They compete nationally against universities across the UK and there are lots of ways for you to get involved and play and train regularly.

Sport at the Union is award-winningly inclusive\*, with an active Pride in Sport LGBT+ campaign and a commitment to helping all students enjoy an active lifestyle, no matter what their level of ability.

Beyond clubs and societies, the Union has so much more to offer.

\* BUCS #TakeAStand Award 2017

“The attitude that permeates UCL when you study here is something that you carry forward... This attitude of not accepting things as they are, not accepting the status quo, but looking to improve things, looking for a better way, looking to advance things in all fields. This is something that you carry with you after you leave here.”

Christopher Nolan (English Literature, 1993). Oscar-nominated director of *Inception*, *Interstellar* and *Dunkirk*.

# Our global network

As a UCL student, you become a lifelong member of a truly global community. Our extraordinary alumni, with their bold, brilliant and inquisitive minds, go on to discover and achieve remarkable things across the globe.

Scan the QR code, or search: '[\*\*UCL alumni\*\*](#)' to find out more.

Over 300,000 UCL alumni live in more than 190 countries worldwide. We count Nobel Prize winners, poets, novelists, BAFTA winners, Olympians, inventors and Turner Prize-winning artists among our graduates.

From your first day at UCL, this network is there to support and inspire you. Experienced alumni volunteers provide guidance through our exclusive mentoring platform and share their insights through panel discussions, skills workshops and internship opportunities.

You will also have the chance to make valuable contacts to accelerate your career at alumni-led speed networking events and social events, in the UK and overseas.

Wherever life takes you after graduation, UCL's global community will be there to support you. From international clubs to industry networks, professional development programmes and lifelong library access, there's no shortage of ways to stay connected.

Scan the QR code,  
or search: [UCL support](#)  
to find out more.

We are here to support you through any challenges you face while studying here, beginning with a wealth of resources to help new students prepare and settle in – including useful newsletters, apps and guides.

# Support when you need it

Our Transition Programme is designed to help you adapt to university life, and includes access to a mentor and social sessions to help you find your feet. You'll also be assigned a Personal Tutor, who can give you academic guidance and steer you towards any help you might need on practical and personal matters.

New arrivals from overseas are invited to a series of welcome events and activities as part of our International Student Orientation Programme, which runs the week before term starts.

If you need more support, UCL Student Support and Wellbeing offers information, advice and services to help all our students thrive. This includes daily drop-in sessions, psychological counselling, disability assistance, therapy dogs on occasion and much more.

We take your future ambitions seriously, and provide you with the support you need to realise your full potential. UCL graduates are in-demand, and over 900 employers attend our careers events every year.

Scan the QR code, or search: [UCL careers](#) to find out more.

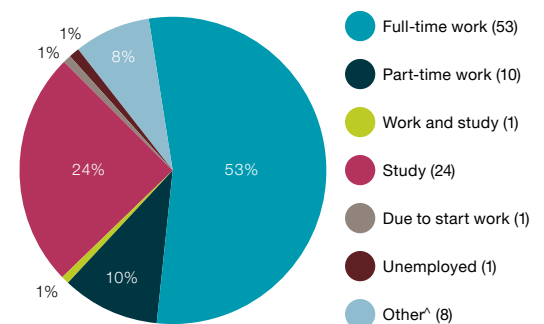

Every week, around 2,500 jobs, internships and work experience opportunities are promoted on the myUCLCareers portal. Through the UCL Talent Bank, we can connect you directly to small-to-medium-sized employers who are actively recruiting UCL graduates.

We also run employer-led coaching in areas such as leadership, negotiation and interview skills workshops and advice sessions to help with your applications and a dedicated Global Internships Programme.

Many of our services are still available up to two years after you leave.

Career destinations of UCL graduates six months after graduation\*

This shows the first career destinations of UK/EU students six months after their graduation from UCL in 2017. The median starting salary of those graduates in full-time work is 26,000.

# Your future career

\* All data taken from the Destinations of Leavers from Higher Education survey undertaken by the Higher Education Statistics Agency (HESA), looking at the destinations of UK and EU graduates in the 2017 cohort.

^ 'Other' represents a grouping of activities in which personal circumstances or choice has influenced the graduate's immediate options, this includes those: travelling (e.g. taking a gap year) looking after the home or family/temporarily sick or unable to work not employed but not looking for employment, further study or training permanently unable to work or retired.

Faculty of Arts and Humanities

The Bartlett: Faculty of the  
Built Environment

Faculty of Brain Sciences

Institute of Education (IE)

Faculty of Engineering Sciences

Faculty of Life Sciences

Faculty of Mathematical  
and Physical Sciences

Faculty of Medical Sciences

Faculty of Population Health Sciences

Faculty of Social and Historical Sciences

School of Slavonic and East European  
Studies (SSEES)

# Our world-leading faculties

UCL is split into several faculties. Whichever programme you choose, you'll be surrounded by fellow curious minds, learn from world-class academics, and benefit from outstanding facilities. We provide a place to belong, be yourself, and realise your potential.

Discover more about each faculty over the following pages.

# Faculty of Arts and Humanities

Our faculty spans traditional humanities and the creative arts: Greek and Latin (Classics), English, European and International Social and Political Studies, Fine Art, Hebrew and Jewish Studies, Modern Languages, Information Studies, Philosophy, and Arts and Sciences (Liberal Arts).

- UCL's arts and humanities are ranked in the UK's top three\* and world's top 15, and our nine departments offer more than 200 distinctive undergraduate degree programmes.
- Students have access to London's vast range of cultural organisations, including the British Library, British Museum, the National Gallery, the British Film Institute and the Tate galleries.
- The faculty was home to the UK's first professors in Spanish, French, German, Italian and Dutch. We bring together over 20 languages to offer the widest range of language and language-related degrees in the UK.

\* Times Higher Education World University Rankings by Subject 2020

^ QS World University Rankings by Subject 2019

You can find our programmes in:

- Arts and Sciences [p56](#)
- Economics, Politics, Geography and Social Sciences [p62](#)
- English and Comparative Literature [p67](#)
- Fine Art and Art History [p68](#)
- Historical and Philosophical Studies [p69](#)
- Languages and Cultural Studies [p71](#)

# The Bartlett: Faculty of the Built Environment

The Bartlett is one of the oldest and most innovative faculties of its kind. Our vision is of a world where everything that is built aims to add to the wellbeing of people and the environment.

- The Bartlett is the top institution in the world for Architecture/Built Environment\* and the *Architects Journal* AJ100 has ranked the Bartlett School of Architecture the top architecture school for 16 consecutive years.
- Located in London, with a wealth of urban history on our doorstep, we are proud to collaborate with leading institutions from industry, government and beyond.
- From 2020, the Bartlett Promise will help to tackle the lack of diversity within the built environment by providing full funding and additional support for students from under-represented groups.

\* QS World University Rankings by Subject 2019

You can find our programmes in:

- Architecture, Construction and Planning<sup>54</sup>

# Faculty of Brain Sciences

UCL Brain Sciences brings together expertise at the forefront of neurology, ophthalmology, speech and hearing sciences, psychology and language sciences, cognitive neuroscience and clinical mental health.

- We are home to some of the world's most influential and creative researchers in the field of brain sciences: UCL is the most highly cited university in Europe for neuroscience and behaviour studies\*.
- UCL Faculty of Brain Sciences is currently the best place in Europe to study psychology
- We are committed to solving the greatest global health and wellbeing problems in the brain sciences. For example, the UK Dementia Research Institute at UCL and the UCL Institute of Mental Health are located within the faculty.

\* InCites Essential Scientific Indicators 2018

^ Times Higher Education World University Rankings by Subject 2020

You can find our programmes in:

- Psychology and Language Sciences [p83](#)

# Institute of Education (IOE)

Ranked first in the world for education for six years running\*, the IOE's mission is to understand social change and improve lives through education.

- We play a global role in education and social science. For example, our research identifying the features of effective early years education has influenced policy and practice around the world.
- Our students have opportunities to engage with real-world challenges from the start, including projects ranging from community organising to social science research.
- Birth cohort studies follow the lives of thousands of individuals from birth, gathering invaluable evidence for shaping public policy. These studies are the crowning glory of UK social science: the IOE is home to three of them.

\* QS World University Rankings by Subject 2014–2019

You can find our programmes in:

- Economics, Politics, Geography and Social Sciences [p62](#)
- Education [p64](#)
- Media [p78](#)
- Psychology and Language Sciences [p83](#)

# Faculty of Engineering Sciences

UCL founded the world's first laboratory devoted to engineering education over 180 years ago and is now home to some of the most successful engineering departments in the UK. Our engineers deal with a vast range of challenges, creating solutions that change the world.

- Our integrated approach to engineering education is unique in the UK. In 2017 we were awarded a Collaborative Award for Teaching Excellence by the Higher Education Academy.
- We work closely with industry and have strong links with, among others, Arup, Cisco, GSK, Google, Microsoft and Rolls Royce.
- Our How to Change the World training programme (run with major governmental, NGO, and industrial partners) equips our young engineers with the creative and technical skills to solve pressing 21st century challenges.

You can find our programmes in:

- Business and Management Studies [p60](#)
- Computer Science [p61](#)
- Economics, Politics, Geography and Social Sciences [p62](#)
- Engineering [p65](#)
- Physical Sciences [p81](#)

# Faculty of Laws

UCL Laws is a law school for the world: a diverse and radical community of researchers, students, academics and alumni embedded in a leading research-oriented university.

- Eliza Orme(1848–1937) became the first woman in England to earn a law degree when she graduated from UCL Laws in 1888.
- UCL Laws students make a valuable contribution to society by taking part in voluntary projects. For example, through the UCL Centre for Access to Justice they offer free legal services to those otherwise unable to afford them.
- UCL Laws is consistently listed as one of the top law schools in rankings – 2nd in the UK and 14th in the world.

\* The Times Good University Guide by Subject 2020

^ Times Higher Education World University Rankings by Subject 2020

You can find our programmes in:

- Law p75

# Faculty of Life Sciences

UCL Life Sciences offers an outstanding portfolio of programmes in biological and biomedical sciences, neuroscience, pharmacy, pharmacological and pharmaceutical sciences – studied in state-of-the-art facilities with world-renowned researchers and clinicians.

- Our world-class research institutes include the Centre for Biodiversity and Environment Research, the Institute for Healthy Ageing, and the Sainsbury Wellcome Centre for Neural Circuits and Behaviour.
- UCL Life Sciences are at the forefront of an exciting Virtual Human project which aims to create digital doppelgangers. In years to come, a virtual model of a patient will enable medical staff to prescribe the best treatment that causes the least side effects or seek the best way to carry out surgery.
- Associated with nine Nobel Prize winners over the years, today UCL Life Sciences continues to change the way we understand the world – for example, rethinking the biophysics of cell shape.

You can find our programmes in:

- Biological and Life Sciences [p58](#)
- Medicine and Allied Subjects [p79](#)

# Faculty of Mathematical and Physical Sciences

The faculty encompasses the logical, experimental and mathematical study of our universe. Frontline research feeds directly into our teaching programmes, and our students benefit from access to outstanding facilities.

- Our departments rank in the top 10 for the Mathematical and Physical Sciences in the UK.\*
- In addition to first-class laboratories in Bloomsbury, the faculty has its own observatory in north London, where in 2014 Natural Sciences students discovered their own supernova in the M82 galaxy.
- Dame Kathleen Lonsdale, UCL scientist, Quaker and pacifist, conducted ground-breaking research in crystallography and in 1945 was one of the first women ever to be elected a Fellow of the Royal Society.

\* QS World University Rankings by Subject 2019

You can find our programmes in:

- Historical and Philosophical Studies [p69](#)
- Mathematics and Statistics [p76](#)
- Physical Sciences (Chemistry, Earth Sciences, Natural Science, Physics and Astronomy) [p81](#)

# Faculty of Medical Sciences

UCL's unique mix of pioneering research, leading academics and clinicians, cutting-edge facilities, world-renowned partner hospitals, and institutions creates an unrivalled environment for medical science teaching.

- UCL is ranked number one in London and in the top 10 in the world for medicine\*. UCL is number one in Europe for medical technology
- UCL's MBBS is internationally renowned and the additional seven innovative BSc programmes are tailored to the needs of our changing world, equipping students with the discipline and skills needed to enter and excel in exciting growth areas.
- Nobel Prizes have been won by no less than 29 current and former staff and students at UCL. Six of these have been awarded to former students and staff of the Faculty of Medical Sciences.

\* QS World University Rankings by Subject 2019

^ ShanghaiRanking Global Ranking of Academic Subjects 2019

You can find our programmes in:

- Medicine and Allied Subjects [p79](#)

# Faculty of Population Health Sciences

Population Health studies the factors that shape our health, including the social and physical environment, the way we live, healthcare systems and our genes. Our graduates are equipped to improve health equity locally and globally, wherever they are in the world.

- UCL is ranked 10th in the world for public health\* and we are the top-rated university in the Russell Group for research in public health
- We address the most pressing 21st century challenges, such as the impact of climate change on health and mental health inequality. Our research linking poverty with poor health redefined the debate on health inequalities in the UK and internationally.
- We collaborate with world-renowned institutions including the World Health Organization, the NHS, Great Ormond Street Hospital and the Wellcome Trust.
- Our Population Health degree will enable you to work with big data to answer important questions on the obesity epidemic, population ageing, epigenetics and many more.

\* ShanghaiRanking Global Ranking of Academics Subjects 2019

^ Research Excellence Framework 2014

You can find our programmes in:

- Medicine and Allied Subjects [p79](#)

# Faculty of Social and Historical Sciences

Our departments – Anthropology, Archaeology, the Americas, Economics, Geography, History, History of Art, and Political Science – explore the social, political, economic, cultural and environmental processes that have shaped the world over time.

- Our teaching is led by scholars whose research is world-class: our social science departments are ranked 11th\* in the world, and our arts and humanities disciplines 6th\*.
- Our departments are among the largest centres for their subjects in the UK, and our degrees will challenge you to think in new ways and to radically extend your understanding of your discipline.
- Our students have unrivalled access to world-leading resources nearby, including the British Library, British Museum, the Wellcome Collection and the Warburg Institute.

\* Times Higher University World Rankings by Subject 2020

You can find our programmes in:

- Economics, Politics, Geography and Social Sciences [p62](#)
- Fine Art and Art History [p68](#)
- Historical and Philosophical Studies [p69](#)
- Languages and Cultural Studies [p71](#)

# School of Slavonic and East European Studies (SSEES)

UCL SSEES offers a unique range of flexible programmes – in Business, Culture, Economics, History, Languages, Politics and Sociology – focused on Russia, the Baltics, Central, Eastern and South-Eastern Europe.

- We are a multidisciplinary centre of expertise offering insight into key issues affecting the region – for example, Putin's evolving relationship with the West emerging markets and the rise of populism.
- All students have the chance to learn one of the region's 10 languages and study abroad at a partner university such as the Higher School of Economics in Moscow, Russia, or Jagiellonian University in Krakow, Poland.
- We are renowned for our public lectures and events. Recent notable speakers include Maria Alyokhina (activist-member of the band Pussy Riot), journalist Marie Le Conte, and economist Thomas Piketty.

You can find our programmes in:

- Economics, Politics, Geography and Social Sciences [p62](#)
- Historical and Philosophical Studies [p69](#)
- Languages and Cultural Studies [p71](#)

# Architecture, Construction and Planning

We're the Bartlett, UCL's Faculty of the Built Environment.  
We're here to build a better future.

The Bartlett teaches undergraduate students to observe, understand and change the built environment with intelligence, creativity and wit. In our own community and in society at large, we value creativity, integrity, equity and autonomy in the development of a sustainable, diverse world in which we all can live. Whether your ambition is to design better buildings, plan better cities, build sustainable communities or help meet the challenge of climate change, our programmes could be a big step towards it.

➤ First career destinations:

- Architects
- Architectural and town planning technicians
- Chartered surveyors
- Construction project managers
- Further study (e.g. Master's programmes)
- Multimedia designers

👁 Related programmes can be found in:

- Economics, Politics, Geography and Social Sciences [p62](#)
- Engineering [p65](#)

Did you know?

**UCL is ranked 1st in the world for architecture and the built environment.**

# Arts and Sciences

UCL's liberal Arts and Sciences (BASc) degrees are unlike any other in the UK. They provide enormous flexibility, allowing you to create a bespoke programme incorporating both arts and sciences subjects.

You'll choose a major and a minor route, one from Cultures/Societies, and one from Health and Environment/Sciences and Engineering. You'll also study a language, plus 'core courses' specially designed to help you make links between different subject areas and provide you with the tools necessary for interdisciplinary study. An optional internship at the end of the second year will help to prepare you for the world of work. Innovative methods of teaching and assessment include flipped lectures, vlogs, blogs and presentations.

- First career destinations:
- Business and other associate professionals
  - Finance and investment analysts/advisors
  - Further study (e.g. Master's programmes)
  - Journalists, newspaper and periodical editors
  - Marketing associate professionals

Entry requirements:

Programme-specific entry requirements (including contextual offers and other qualifications) can be found at: [ucl.ac.uk/prospectus](https://ucl.ac.uk/prospectus) or scan the QR code.

# Routes with broad areas of study:

Students can select one major route from the list below. If you choose an Arts major route you will then choose a Science minor route, and vice versa if you choose a Science major route.

## Art routes

### Cultures

- Anthropology
- Art
- Creative Writing
- Cultural Studies
- Design and Visualisation
- Film and Documentary Film-making
- History
- History of Art
- Languages
- Literature
- Music
- Philosophy

### Societies

- Archaeology
- Economics
- Geography
- History
- International Relations
- Law
- Management
- Philosophy
- Political Economy
- Politics
- Sociology

## Science routes

### Health and Environment

- Anthropology
- Biochemistry
- Biological Sciences
- Biomedicine
- Environmental Sciences
- Geography
- Geology
- Neuroscience
- Pharmacology
- Psychology

### Sciences and Engineering

- Chemistry
- Computer Science
- Earth Sciences
- Economics
- Engineering
- Mathematics
- Physics
- Statistics

# Biological and Life Sciences

Did you know?

Professor John O’Keefe (UCL Bioscience) was awarded the 2014 Nobel Prize for his discovery of our ‘inner GPS’: the brain cells that enable us to orient ourselves.

At UCL our research in the biological and life sciences spans an incredible breadth of scientific areas.

From understanding the functioning of the brain through to structural, molecular, cell and developmental biology, genetics, biochemistry, pharmacology, ecology and biodiversity, we are finding answers to some of the most important and urgent problems facing humans and other animals. All our academic researchers are active teachers and educators. You can choose one of our broad entry programmes such as Biological or Biomedical Sciences, or specialise from the start in one subject.

➤ First career destinations:

- Biochemists/medical scientists
- Business and related associate professionals
- Further study (e.g. MBBS/ Master’s/PhD programmes)
- Journalists, newspaper and periodical editors
- Nursing auxiliaries and assistants
- Teaching and other educational professionals

◉ Related programmes can be found in:

# Business and Management Studies

The UCL School of Management is developing entrepreneurial leaders for the next generation of data-driven, technology-intensive organisations.

Our programmes are developed in consultation with industry, with your future career in mind. On graduation, you will have strong leadership and communication skills and the ability to work flexibly, creatively and internationally in a range of areas, including banking and financial companies, consulting and tech. We offer exceptional support to our students in their search for a career, as well as a range of placement or internship options to give you hands-on experience to complement your study.

- ▶ First career destinations:
 
  - Business and related associate professionals
  - Finance and investment analysts/advisors
  - Management consultants and business analysts
  - Programmers and software development professionals
  - Sales accounts and business development managers
- ◉ Related programmes can be found in:

# Computer Science

Studying computer science develops analytical and problem-solving skills fundamental to a huge range of careers in computing and beyond.

Our degrees, many taught by world-leading researchers, provide a solid foundation in an ever-changing field. Our teaching includes practical sessions, applying theory and teamwork to solve real-life problems. We collaborate with global computer companies, as well as businesses in the financial, health, and other sectors, to give you industry contact and context throughout your degree. Our Computer Science BSc/MEng balance theory and practice. Our Mathematical Computation MEng focuses more on mathematics and theoretical computer science.

- First career destinations:
  - IT and telecommunications professionals
  - IT business analysts, architects and system designers
  - Management consultants
  - Programmers and software development professionals
  - Web design and development professionals

# Engineering

Engineers use insights and discoveries from across the academic spectrum to develop products and processes that truly change the world.

From fluid flow in blood vessels to the design of ships, from the processing of medicines to the generation and distribution of energy, engineers solve problems for the good of humanity. From the beginning of your degree you'll be given a grounding in the fundamentals of engineering, with a focus on cross-team working, real-world scenarios and professional skills. Whichever discipline you choose to specialise in, you'll be ready upon graduation to make an impact in the world, with potential careers in sectors from finance and business to energy and project planning.

# English and Comparative Literature

With one of the most enduring and respected English departments in the country, and an exceptional range of modern and ancient languages on offer, UCL provides a comprehensive environment for the study of literature in English and other languages.

Our degrees require you to undertake careful critical and creative reading, reflection and writing. We aim to develop your analytical and interpretative skills, allowing you to develop a sensitivity to subtext and context, to be able to argue both sides of a case, and to undertake research in order to present a well thought-through argument.

- First career destinations:
  - Further study (e.g. Master’s programmes, Graduate Diploma in Law)

# Historical and Philosophical Studies

This wide-ranging subject area covers everything from the history of the world, the ideas of philosophers ancient and modern, and practical and analytical techniques for discovering how our ancestors lived.

Did you know?

Recent fieldwork destinations for the Institute of Archaeology include Belize, China, the Mediterranean, Montenegro, Romania, Spain, Uganda and Wales.

Students on these degrees develop strong research and analytical skills and a sensitivity to different cultures and ideas. They learn to communicate effectively verbally, visually and in writing to diverse audiences. Studying these subjects could lead to careers in government, international agencies and non-governmental organisations (NGOs), consultancy (economic, political risk, security, marketing), financial services, law, media, teaching, heritage and museums, as well as academia.

➤ First career destinations:

- Business and related associate professionals
- Business, research and administrative professionals

# Languages and Cultural Studies

UCL offers a remarkable range of languages and associated cultural studies including art, film, history, literature and linguistics, philology, philosophy and politics.

A degree in this area equips students with skills much sought after by employers such as the ability to speak, understand and write in a foreign language intercultural understanding translation and communication skills as well as critical and analytical rigour. You may choose languages that you have studied before or start others from scratch, depending on the programme. The year abroad, integral to most degrees, allows you to immerse yourself in another culture at one of our prestigious overseas partner institutions.

➤ First career destinations:

- Authors, writers and translators
- Business and related associate professionals
- Further study (e.g. Master's programmes)
- Marketing associate professionals
- Teaching and other educational professionals

# Law

UCL Laws is consistently ranked as one of the UK's top law schools, recognised for the quality of its teaching by both students and the legal profession.

Through lectures, seminars and small group tutorial teaching, you can explore the principles of law and understand its role in governing the relations between the individual, the state, and society. You will be encouraged to develop a critical understanding of how the law works and how it can be changed. Students benefit from specialist career support and can choose to participate in an array of activities including mooting, pro-bono opportunities and an exciting and varied events programme, organised in conjunction with the Student Law Society.

- First career destinations:
  - Business and related professionals
  - Further study (e.g. Legal Practice Course, LLM)
  - Marketing associate professionals
  - Solicitors and legal professionals
- ◊ Related programmes can be found in:
  - Economics, Politics, Geography and Social Sciences [p62](#)

## Entry requirements:

# Mathematics and Statistics

So many activities and industries – engineering and science, business and finance, computing – depend, in large part, on mathematical and statistical insights.

Our degree programmes are intellectually challenging. They will develop your imagination and your ability to think strategically and argue clearly. You will gain advanced quantitative and computing skills, as well as honing your logical, analytical and problem-solving abilities, giving you a wealth of options for your future career. Our graduates go into a diverse array of careers and a large proportion go onto further study in both theoretical and applied fields.

➤ First career destinations:

- Business and related associate professionals
- Chartered and certified accountants
- Finance and investment analysts/advisors
- Further study (e.g. Master's/PhD programmes)
- Teaching and other educational professionals

👁 Related programmes can be found in:

# Media

UCL’s new Media degree will set the benchmark for ambitious future media professionals, combining the highest standards of academic and critical rigour with media practice and state-of-the-art professional skills, and providing the opportunity to take up a work placement drawing on London’s rich media environment.

You will benefit from world-class research in the media field, and will gain an understanding of the exhilarating possibilities of the digital era: how the media is made, how it is experienced, how it functions in your world, and how it offers you expressive opportunities.

You will reach an advanced level in film-making or in digital game and interactive media, or both: two of the most important media forms for the UK economy. You will develop your own projects using brand-new cutting-edge media studios, and will exhibit your work in the end-of-degree show.

➤ First career destinations:

The first cohort of students admitted to the Media BA are not due to graduate until 2024. Therefore, no first career destinations for students on this programme are currently available.

# Medicine and Allied Subjects

Understanding human health, the causes of and contributors to disease, and the treatment of disease, is fundamental to our society. It necessitates study across human biology, medicine and the social sciences, requires creativity, and is intellectually demanding.

Our degrees provide a host of options for careers across medicine and the biomedical sciences, including life as a doctor, research scientist, pharmacist or a variety of other fulfilling science- or medicine-related professions. Our graduates will have a robust and fundamentally transferable skill set of critical analysis, data interpretation, communication and independent thinking.

➤ First career destinations:

- Further study (e.g. Master's programmes)
- Health associate professionals
- Medical practitioners
- Pharmacists

# Physical Sciences

This area covers the natural sciences linked to the study of inanimate objects, forces, and properties of the cosmos – from molecules to galaxy clusters, from the Earth's core to the edge of the observable universe.

Did you know?

In 2019, UCL researchers detected water vapour in the atmosphere of a super-Earth with habitable temperatures in a world first.

Study in these areas is renowned for developing highly sought-after analytical skills, the ability to undertake field and laboratory research and an understanding of mathematics and the principles and techniques of your chosen subject. A scientific training also equips you with practical transferable skills in rational argument and problem-solving, perfect for careers in areas such as research, design, development, computing, finance, planning and teaching, among others.

➤ First career destinations:

- Business and related associate professionals
- Further study (e.g. Master's/PhD programmes)
- Information technology and telecommunications professionals
- Management consultants and business analysts
- Physical scientists

# Psychology and Language Sciences

UCL is a world leader in research and teaching of mind, behaviour and language.

Our researchers cover a range of disciplines such as cognition, neuroscience, linguistics, education, communication, neurological disorders, phonetics and development across the human lifespan. Our degrees offer you the chance to acquire quantitative and qualitative skills by critically evaluating research data and conducting your own research studies. In addition to subject-specific skills you will also develop a range of highly transferable skills including problem-solving, communication, writing for different audiences and critical thinking, that are essential for a range of graduate careers, which could include law, computing, healthcare, marketing, commerce and industry.

➤ First career destinations:

- Further study (e.g. PGCE, Master's and PhD programmes)
- Marketing associate professionals
- Psychologists
- Teaching and other educational professionals
- Welfare and housing associate professionals

# Programme symbols

Throughout the programme pages we've used the following symbols:

## First career destinations

This shows a selection of first career destinations for programmes in the section, taken from the Destinations of Leavers of Higher Education (DLHE) survey carried out by the Higher Education Statistics Agency (HESA) for the years 2014, 2015, 2016 and 2017. The survey looks at what UK/EU graduates have gone on to do approximately six months after graduating from UCL.

## Related programmes

Many of our degrees are interdisciplinary, working across two or more subject areas – so it's possible that you'll find programmes of interest in more than one section. We have indicated where there are overlaps so you can see the full choice of programmes available to you.

## Study abroad

Programmes with study abroad as an integral part of the curriculum – for example, programmes in the Languages section – are marked with this symbol. Please note that you may also choose to study abroad as an option within many other programmes too.

## Placement or internship opportunity

This symbol indicates programmes where a placement or internship opportunity is an integral part of the curriculum – for example, the Pharmacy MPharm. Please note that many other programmes also offer optional placements or internships.

## Accreditation

Many degrees are accredited by professional bodies, meaning that when you graduate you will either be eligible for membership, or will have fulfilled the academic requirements for membership, of the accrediting body. Our Law programmes are accredited as Qualifying Law Degrees. Completion of the Medicine MBBS BSc enables provisional General Medical Council (GMC) registration.

# Choosing your university is a big decision

We know that the process can be daunting, so we've tried to make the information on the following pages as straightforward as possible. We've also provided details of where you can find more help and advice.

# Entry requirements

Scan the QR code, or search:  
**'UCL entry requirements'**  
to find out more.

We're seeking the brightest minds to join the UCL community, and you must satisfy our specific entry requirements to study here.

For A levels, UCL typically makes offers in the range of A\*A\*A-ABB. For all programmes, you must have at least two A levels from our list of preferred subjects.

Please note that we do not consider General Studies or Critical Thinking to meet the entry requirements for any of our programmes.

As well as A levels, we accept a wide range of other UK and overseas qualifications, for which requirements will be listed under each individual programme.

Please note that for some programmes there may be additional admissions tests that will need to be taken. These will be indicated on the programme page in the online Prospectus.

In addition, if you are not a national of a majority English speaking country (as defined by the UK Visas and Immigration, Home Office) you must provide recent evidence of your English proficiency. The level required for each programme is shown on the relevant page in the online Prospectus.

For more information about entry requirements (including GCSE requirements which vary across undergraduate programmes), accepted qualifications and English language requirements, see the QR code above.

## Access UCL – contextual offer

As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. The contextual offer will be a lower offer than the standard UCL offer and is listed under each programme on the online Prospectus page. For more information on eligibility criteria for the Access UCL scheme, visit: [ucl.ac.uk/prospectus](https://ucl.ac.uk/prospectus)

# How to apply

Scan the QR code, or search:  
'[UCL undergraduate application](#)'  
to find out more.

If you're inspired by what we offer, and meet our entry requirements, we look forward to reading your application. Here's what you need to do.

- 
- |  |   |
|--|---|
| <p>1. Find your degree programme</p>                                 | <p>It's important to research the degree programmes and universities that interest you before you make your choices. You can find out detailed information about each of our programmes by visiting <a href="http://ucl.ac.uk/prospectus">ucl.ac.uk/prospectus</a>. You could also attend one of our Open Days, see <a href="http://ucl.ac.uk/openday">ucl.ac.uk/openday</a>.</p> |
| <hr/>  |   |
| <p>2. Apply online</p> <p>Applications open<br/>1 September 2020</p> | <p>Undergraduate applications to UCL are made through UCAS. Our UCAS code is <b>UCL U80</b> there is no campus code. | <hr/>  |   |
| <p>3. Considering your application</p>                               | <p>For more information on how we assess applications and when we will respond, please see the QR code above.</p> <p>The selection criteria may vary across programmes at UCL. Each programme page on the online prospectus will have specific selection criteria including information about interviews, selection events or open days (if relevant).</p>                        |

## Student selection

We strive to admit the academically brightest students to UCL, regardless of background – those who are enthusiastic and passionate about learning, and who will make a positive contribution to university life and gain the most from their years of study here. In fact, UCL was founded to open up education in England for the first time to those who had been excluded from it. That commitment remains as strong today as it was back in 1826.

Our Equality, Diversity and Inclusion Policy and Strategy underlies every aspect of our student selection process. We want to admit excellent students who are likely to complete their degree programme successfully and derive benefit from it, regardless of age, disability, ethnic origin, gender identity, marital status, sex, sexual orientation, number of dependants and religious or political beliefs. We positively encourage and welcome applications from members of underrepresented groups at UCL.

UCL's Access and Participation Plan ([ucl.ac.uk/access](http://ucl.ac.uk/access)) outlines our commitment to widening participation at UCL. We spend around 30% of our additional fee income on access and success measures, including the Access UCL scheme – see QR code above.

## Visa requirements

If you think you may require a visa to study in the UK, you should visit: [ucl.ac.uk/students/immigration-and-visas](http://ucl.ac.uk/students/immigration-and-visas). This provides more information about the types of visa, application processes and our requirements.

# Fees

Scan the QR code,  
or search: **'UCL fees'**  
to find out more.

Our fees can vary depending on the modules you choose, and your country of origin. Please take the time to familiarise yourself with the information below.

## Tuition fees

UCL's annual tuition fee covers all elements of your tuition, registration and examination (field courses are not included). However, optional modules taken elsewhere in the University of London may attract an additional fee. Fees for accommodation are charged separately. UCL offers several 'Dual Degree' programmes where students spend half of their degree studying at UCL and the other half at a university overseas (these are distinct from Year Abroad or International programmes). In these cases, fees are payable to UCL for the time spent studying at UCL, and to the other host university for the time spent there. More details of these can be found at: [ucl.ac.uk/prospectus](https://ucl.ac.uk/prospectus)

Please note that the information on this page applies to the 2020/21 academic year. Fees for 2021 entry will be published on the UCL Students website ([ucl.ac.uk/students/fees-and-funding](https://ucl.ac.uk/students/fees-and-funding)) as soon as they are available.

### How tuition fees are classified

The level of fee will depend upon whether you're classed as a UK, EU, Overseas or Islands student. You may already know into which category you fall but this will be confirmed if you are offered a place at UCL.

### Tuition fees for UK and EU students

UK/EU undergraduate fees are currently (February 2020) set at 9,250 for UK/EU students for the first year of study. Fees for UK/EU undergraduates may be subject to increase for the year commencing 2021 and for each year of study thereafter. UCL reserves the right to increase its fees in line with government policy (including on an annual basis during the programme).

You are not required to pay upfront fees. You can apply to the Student Loans Company for a Tuition Fee Loan and your fees will be paid directly to UCL on your behalf. Loan repayments are only made once you have left university and are earning over 25,725 per year. Please see [gov.uk/student-finance](https://gov.uk/student-finance) for further information.

### Tuition fees for overseas students

For 2020 entry, UCL's tuition fees for overseas students range between 18,430 and 34,660 per year. The vast majority of our undergraduate programmes charge a fixed fee every year for overseas students (Medicine MBBS is an exception) and these won't change during your time with us, so you know upfront exactly how much you'll need to pay.

Note for EU students: UK withdrawal from the European Union (EU)

At the time of publication, the date upon which the UK's withdrawal from the EU became effective was 31 January 2020. The UK is now in the transition period until 31 December 2020 while the EU and UK negotiate their future relationship. The longer term implications for EU students who want to apply to study in the UK after the transition period will depend on the outcome of the negotiations and what kind of future relationship is agreed between the UK and the EU. Please check our dedicated website [ucl.ac.uk/brexit](https://ucl.ac.uk/brexit) for updates.

# Sources of funding

Scan the QR code,  
or search: **'UCL funding'**  
to find out more.

University is an investment in your future. Depending on your circumstances, there are many sources of financial support to make higher education more accessible.

## Sources of funding for UK and EU students

- **Maintenance Loan from the Student Loans Company** – see [gov.uk/student-nance](https://gov.uk/student-nance)

For students from Scotland, Wales or Northern Ireland, there is a different process and funding package available:

**Scotland** – see [saas.gov.uk](https://saas.gov.uk)

**Wales** – see [student.nancewales.co.uk](https://student.nancewales.co.uk)

**Northern Ireland** – see [student.nancenl.co.uk](https://student.nancenl.co.uk)

If you live in the Channel Islands or Isle of Man please contact your education authority for funding information.

- **UCL Undergraduate Bursary** – this is a means-tested bursary of up to 2,500 per year – see [ucl.ac.uk/scholarships](https://ucl.ac.uk/scholarships)
- **Care Leaver Bursary**, aimed at students who are care experienced – see [ucl.ac.uk/care-leavers](https://ucl.ac.uk/care-leavers)
- **Disabled Students' Allowance** – see [gov.uk/disabled-students-allowances-dsas](https://gov.uk/disabled-students-allowances-dsas)
- **Students with dependants** – see [gov.uk/student-nance/extra-help](https://gov.uk/student-nance/extra-help)
- A range of additional scholarships and bursaries are available each year, based on financial need and/or academic merit – see [ucl.ac.uk/scholarships](https://ucl.ac.uk/scholarships)
- **Employment** – there are plenty of opportunities to find varied and reasonably paid part-time work in London. The Students' Union website lists opportunities at [studentsunionucl.org/human-resources/jobshop](https://studentsunionucl.org/human-resources/jobshop)

Note for EU students: UK withdrawal from the European Union (EU)

At the time of publication, the date upon which the UK's withdrawal from the EU became effective was 31 January 2020. The UK is now in the transition period until 31 December 2020 while the EU and UK negotiate their future relationship. The longer term implications for EU students who want to apply to study in the UK after the transition period will depend on the outcome of the negotiations and what kind of future relationship is agreed between the UK and the EU. Please check our dedicated website [ucl.ac.uk/brexit](https://ucl.ac.uk/brexit) for updates.

## Sources of funding for overseas students

- **UCL Scholarships** – see [ucl.ac.uk/scholarships](https://ucl.ac.uk/scholarships)
- **Employment** – International students who require a visa or prior entry clearance are normally permitted to work for up to 20 hours per week during term time and full-time in the vacations. This restriction applies to voluntary as well as to paid employment – see [ukcisa.org.uk](https://ukcisa.org.uk) for more information.

## If you have financial problems during your degree

The UCL Financial Assistance Fund may be able to help if you experience unexpected financial hardship during your degree there is also an emergency loan scheme for students whose funding has been delayed. Eligibility requirements apply – see [ucl.ac.uk/students/funding/financial-support](https://ucl.ac.uk/students/funding/financial-support) for more details.

For further information

A good starting point for further information about student finance is [gov.uk/student-nance](https://gov.uk/student-nance) if you're a UK/EU student, or your local Ministry of Education if you're an overseas student.

You can find out more about UCL fees and funding – see [ucl.ac.uk/students/fees-and-funding](https://ucl.ac.uk/students/fees-and-funding)

## Your living expenses

Living costs may vary greatly from student to student, depending on individual needs and lifestyle. To guide you, UCL has estimations of how much students might spend on living costs.

For an undergraduate student living in a UCL Hall of Residence this is likely to be around 280 per week, based on a 39 week year – see [ucl.ac.uk/students/funding/manage-your-money/study-expenses](https://ucl.ac.uk/students/funding/manage-your-money/study-expenses)

Additional costs on some degree programmes

Students on certain degree programmes will incur costs in addition to their tuition fees for example, for materials or books, or costs related to carrying out fieldwork. For full details about possible additional expenses, contact the department that provides the programme.

# Accommodation

Scan the QR code, search UCL accommodation or see p26–27 for more information.

Food and accommodation are one of the biggest costs of studying at university, so you need to choose your options carefully to suit your needs and budget.

All the information you need about the application process, and details of all our accommodation, can be found online (see QR code). The majority of the accommodation available is managed by UCL. Some accommodation is managed by partners such as the University of London or private operators.

## What you get and what it might cost

Our accommodation fees include room rental and use of communal areas maintenance within your Hall cleaning of shared bathrooms, kitchens and communal areas utility charges including Wi-Fi basic contents insurance 24/7 support – and vibrant UCL communities led by residents. The fees you pay vary depending on location and facilities.

Each of our sites is managed and run by experienced and knowledgeable managers and student residence advisers (SRAs). Their responsibilities range from wellbeing to out-of-hours support, ensuring you have an exceptional student experience. All of our accommodation has secure access, as your security and wellbeing is our main priority.

As a guide, for the 2019/20 session fee ranges were as follows:

### UCL catered accommodation

- Twin room (not en-suite):  
151.97–167.09 per week
- Single room (not en-suite):  
182.54 –221.69 per week

### UCL self-catered accommodation

- Twin room:  
98.84–134.40 per week
- Single room (inc. en-suite):  
222.46–259.98 per week

Fees for UCL accommodation are updated yearly and appear online as soon as they are set. Fees for halls operated by the University of London are set in the spring of the year of entry.

Find out more at [ucl.ac.uk/accommodation](http://ucl.ac.uk/accommodation) or [halls.london.ac.uk/accommodation](http://halls.london.ac.uk/accommodation)

After your first year

Most students look for privately rented accommodation in year two and beyond, often sharing with friends.

UCL partners with other providers such as University of London and private operators, that offer alternative accommodation available for returning students, the majority under four miles from our Bloomsbury campus. These rooms are offered at a special rate for UCL students, and so prices for the same properties may be higher on other websites.

Contact us at [accommodation@ucl.ac.uk](mailto:accommodation@ucl.ac.uk) or [facebook.com/uclaccommodation](https://facebook.com/uclaccommodation)

# Discover UCL for yourself

There's always something exciting going on at UCL, and our central London location makes finding us easy. We look forward to meeting you.

## Come to one of our Open Days

Our next UCL Undergraduate Open Days will be held on Friday, 19 June, Saturday, 20 June and Saturday, 12 September 2020. See [ucl.ac.uk/openday](https://ucl.ac.uk/openday) for more details.

If you can't make those dates, there are lots of other opportunities to visit our campus, talk to staff and students and find out more:

- Book a campus tour: [ucl.ac.uk/guided-tour](https://ucl.ac.uk/guided-tour)
- Other UCL events: Open Days, Higher Education Fairs and school and country visits: [ucl.ac.uk/prospective-students/undergraduate/events](https://ucl.ac.uk/prospective-students/undergraduate/events)
- University of London Open Days: [undergraduatefair.london.ac.uk](https://undergraduatefair.london.ac.uk)
- Public events at UCL: [ucl.ac.uk/events](https://ucl.ac.uk/events)

## If you'd like to find out more

If you have a general enquiry about UCL and our degree programmes, feel free to contact us:

[study@ucl.ac.uk](mailto:study@ucl.ac.uk)  
44 (0)20 3370 1214

## Access and Widening Participation

UCL runs a range of summer schools, taster days and other activities for prospective students from under-represented groups. To find out more, including the eligibility criteria for these, visit [ucl.ac.uk/wp](https://ucl.ac.uk/wp)

## How to get to us

Whether you're coming from elsewhere in London, the UK or overseas, it's easy to get to us. See [ucl.ac.uk/maps/public-transport](https://ucl.ac.uk/maps/public-transport) for directions.

Scan the QR code,  
or search: **'UCL Open Days'**  
to find out more
