WHAT STUDENTS SAY

"My course is an eye opener to anyone who is interested into discovering business.

I greatly benefitted from my study abroad experience during this programme. It made me become more independent. It was a great opportunity to make international contacts and builds communication with people from other countries. It is a great chance to make new friends. This degree has given me a chance to further my studies and I plan to do a masters degree in HR, either in WIT or in a college in England.

The location in Waterford also gives it a great atmosphere and an excellent environment. It is an excellent experience to go through for not just international students but Irish students too. The Waterford city itself is very student friendly and it's much more affordable to study here than in other colleges in Ireland. Accommodation in the surrounding areas is quite affordable also."

Kee Shun Chung
Bachelor of Arts (Hons) in International Management

"BSc (Hons in Pharmaceutical Science in WIT is a 4 year course providing small-class based lectures and practical experience delivered by experienced lecturers in fully equipped classroom and laboratory facilities. In 3rd year I spent 6 months carrying out work placement in Teva Waterford where I first discovered my interest in R&D. In 4th year I participated in an industry collaborated project. I presented my final year project in Science Undergraduate Research Experience (SURE) conference in September 2019. It was a great experience to connect with scientific experts from academia and industry. Throughout those 4 years in WIT, I learnt and got so much that my skills and knowledge will continue to benefit me as I progress in my career."

Ms. Yi Xin Moey
BSc (Hons) in Pharmaceutical Science

ACCOMMODATION

WIT offers high quality campus accommodation that is safe, pleasant and ideal for living and studying. Each student has a single bedroom with private bathroom and internet connection. Students share a modern kitchens and living room with 2 or 3 other students. All campus accommodation is purpose built and fully equipped with 24 hour security, parking and a serviced laundrette.
