EducationIreland

Ireland – centre of ground-breaking and world-leading research

Ireland has always excelled as a centre of innovation and creativity. Today, our universities are home to some of the most cutting-edge research, often in collaboration with major national or international corporations

How much will it cost for me to live in Ireland?

Living expenses vary depending upon where the higher education institution you choose is located; on the type of accommodation you prefer; and on the personal expenditure you choose. On average, expect to spend between €12,000 and €15,000 per year. Rents and prices for goods and services generally are often cheaper for those living outside of Dublin, so lower overall costs can be expected.

Ireland – unrivalled access to career-starting opportunities

Many of the world's leading multinational companies – such as Google, Facebook, Twitter, Apple, Intel, Genzyme, Ericsson, Allianz, Takeda, Paypal, Abbott, Lilly, LinkedIn, Salesforce and EA Games – have international, European, or EMEA headquarters in Ireland. In fact, Ireland is now the European hub for more than 1,000 leading multinational companies.

These international companies all have one thing in common: they require a skilled, educated and highly capable workforce to drive their success. Thousands of Ireland's graduates are already innovators in their fields and leaders in their companies. With many courses including work placement and intern opportunities, while gaining a valuable qualification you could kick-start a successful career at the same time.
