CAMPUS SPAIN

# Español LCA

Spanish Language, Culture and Adaptation to University

## University Pathway Program

### LANGUAGE

Intensive Spanish course at the public university: a custom-made program especially designed for the international students preparing to join a university in Spain for Bachelor's or Master's.

L

An important part of the subjects at the universities is taught in Spanish. This is the reason why you should dedicate your first year in Spain to learning Spanish, before you continue to Bachelor's or Master's. We will follow-up on your academic progress and, in case you need it, we will provide extra support.

### CULTURAL IMMERSION

30% of teaching activities are conducted outside the classroom: trips, sightseeing, visits to museums, concerts, theaters, conferences, popular celebrations, academic events and many more...

C

### ADAPTATION TO UNIVERSITY: ON CAMPUS EXPERIENCE

Integrate with local students and become a part of the campus life. Use Spanish all day long with a language buddy (a native Spanish student for regular conversations and language skills improvement).

A

### UNIVERSITY FOUNDATION

For many degrees international students do not need to take any admission tests. However, if you are targeting the most demanded majors, you will need to top up your high school marks with additional exams (UNEDasiss). You can prepare for those exams at the foundation courses in specific subjects.

Duration 7 or 10 months

Annual program 750 hours: from October to July

Semester Program 750 hours: from January to July

\* Students with prior level of Spanish language can be qualified to join the Course for A2 or B1 level.

Yuen  
Malaysia 

*I was struggling to decide where to study when I just came across Campus Spain. After a few meetings with Campus Spain education advisors, I found out that to continue my education in Spain was a good idea.*

*It is a great experience to study in Spain with a lot of seminars, conferences, and other activities to help students to learn besides the normal lessons.*

**Español LCA (October 2019)**  
Bachelor's degree in Chemistry  
University of Valencia

Erin  
Indonesia 

*I have decided to join Campus Spain, because they accompany students at every step of the way. They helped with my visa application, booked my dorm, picked us up from the airport, gave us Spanish SIM card and the insurance card... All we had to "worry" about was to study and enjoy Spanish culture.*

*After the Spanish LCA course I started my degree in Business. I am excited about all students' mobility programs it offers. Next year I am planning to take my Erasmus exchange year in France.*

**Español LCA (October 2020)**  
Bachelor's degree in  
Business Administration  
University of Valladolid

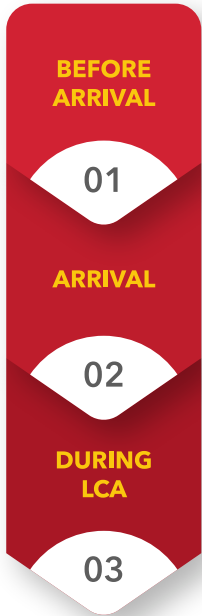

Zeyad  
UAE 

*I have enjoyed my 10 months at Spanish LCA a lot! I have made friends with students from all over the world. I have some great memories from the outside the classroom activities, especially the trips and, of course, La Liga football match we watched at the stadium.*

*I will be finishing my Spanish LCA course soon and I have already got my seat to study bachelor's in IT Engineering next year. I am really excited about that!*

**Español LCA (October 2021)**  
Bachelor's degree in  
IT Engineering  
University of Sevilla

# Pathway to University Studies in Spain

- Academic assessment and counselling
- Admissions
- Visa support
- Search for the housing
- Health & accident insurance
- Support with legalization of documents required for the University application

- Airport pick-up
